The second half of the course covers economic growth, unemployment and inflation, fiscal policy, and the open economy. Readings from the text by Samuelson and Nordhaus are listed below. Additional readings can be found on the course web site at: http://www.econ.yale.edu/smith/econ116a.

Please note that the schedule for the problem sets has been changed from the original syllabus handed out by Prof. Jaynes at the beginning of the course. In particular, problem sets will be posted on the course web site (see address above) on Thursdays and will be due at the beginning of lecture on the following Thursday.
